FORMULARIO DE MEDICAMENTOS CUBIERTOS POR CLASIFICACIÓN TERAPÉUTICA

El Plan Médico Servicios de Salud Bella Vista, Inc. Le presenta la lista de Medicamentos que su cubierta de farmacia utilizará para ofrecerle una amplia selección de opciones de tratamiento costo-efectivas.

Su cubierta de farmacia utiliza una Lista de Medicamentos para ayudar a reducir el continuo aumento en los costos de los medicamentos y a la vez ofrecerle una amplia selección de opciones de tratamiento costo-efectivas. Se ofrece también como una alternativa para continuar ofreciendo a nuestros asegurados planes de farmacia más accesibles.

La Lista de Medicamentos es una guía de los medicamentos seleccionados por el Comité de Farmacia y Terapéutica de PharmPix, la cual representa los medicamentos necesarios para un tratamiento de alta calidad. Nuestro Comité de Farmacia y Terapéutica está compuesto por médicos, farmacéuticos clínicos y otros profesionales de la salud, quienes se reúnen periódicamente para evaluar y seleccionar aquellos medicamentos que serán incluidos en esta Lista de Medicamentos. Esta selección se hace a base de la seguridad, efectividad y costo de los medicamentos. De ahí la importancia de que su médico y usted seleccionen los medicamentos en la Lista.

En las páginas a continuación presentamos la Lista de Medicamentos, con toda la información requerida para facilitarle su lectura e interpretación.

Le exhortamos a que evalúe con su médico los medicamentos disponibles en nuestra Lista para tratar su condición. Nuestra Lista contiene un sinnúmero de medicamentos por condición, los cuales incluyen medicamentos genéricos y de marca preferidos, entre otros. Al utilizarla, usted contribuye a mantener los costos del beneficio de farmacia en un nivel razonable, además que sus copagos serán menores.

Camil Vega
Directora Ejecutiva
Plan Médico Servicios de Salud Bella Vista, Inc.

INTRODUCCIÓN

Esta es una lista abreviada de medicamentos que contiene los **medicamentos cubiertos** por su clasificación terapéutica.

Presentación de la Lista de Medicamentos

En el ejemplo a continuación se ilustra la información que se provee para los medicamentos incluidos en la Lista de Medicamentos.

Product Name (Nombre del Medicamento)	Dosage Form (Presentación)	Reference Brand Name (Nombre Comercial de Referencia)	Tier (Nivel)	UM
ANALGESICS (Analgesicos)				
Analgesics, Other (Analgesicos, Otros)				
Ascomp-codeine	50-325-40-30mg	Butalbital-ASA-Caff-Codeine (Oral)	2	
Aspir-low	81mg	Aspirin (Oral)	0	QL

Para cada medicamento incluido en la Lista de Medicamentos aparece su nombre comercial, su nombre genérico, el nivel y si tiene alguna instrucción especial.

¿Cómo usar la Lista de Medicamentos?

La manera más fácil en que usted puede conseguir los medicamentos en la Lista de Medicamentos es buscando el medicamento en el Índice al final de la lista. El Índice provee una lista por orden alfabético de todos los medicamentos incluidos en este documento. Ambos, medicamentos de marca como genéricos están incluidos en el Índice. Busque el Índice y encuentre el medicamento. Al lado del medicamento, usted encontrará el número de la página donde encontrará cómo está cubierto. Verifique la página indicada en el Índice y encuentre el nombre del medicamento en las columnas.

¿Cuánto usted paga por los medicamentos cubiertos?

Los medicamentos en la lista de medicamentos se clasifican por niveles. Estos niveles identifican los diferentes niveles de costo compartido, o sea, lo que usted paga por los medicamentos en la receta. Estos niveles son los siguientes:

- Nivel 0 – Medicamentos cubierto al amparo de la ley PPACA
- Nivel 1 – Medicamentos Genéricos
- Nivel 2 – Medicamentos Preferidos
- Nivel 3 – Medicamentos de Marca No Preferido
- Nivel 4 – Medicamentos Especializados o Biotecnológicos

¿Qué son medicamentos genéricos (Nivel 1)?

Un medicamento genérico tiene el mismo ingrediente activo en la fórmula que un medicamento de marca. Los medicamentos genéricos usualmente cuestan menos que un medicamento de marca y están aprobados por la Administración Federal de Drogas y Alimentos (FDA, por sus siglas en inglés).

Recomendamos que utilice los medicamentos genéricos. Estos son iguales en potencia y dosis y también son aprobados por la FDA.

¿Qué son medicamentos preferidos (Nivel 2)?

Hay ciertos medicamentos de marca que han sido seleccionados por el Comité de Farmacia y Terapéutica como agentes preferidos luego de su evaluación de seguridad, eficacia y costo. Los mismos están identificados a la derecha como Nivel 2. En aquellas clases terapéuticas donde no hay genéricos disponibles, les exhortamos a que utilice como primera alternativa aquellos medicamentos identificados como preferidos.

¿Qué son medicamentos No Preferidos (Nivel 3)?

Un medicamento es clasificado como No Preferido porque existen alternativas en los niveles anteriores con menos efectos secundarios o son más costo- efectivos. Si el asegurado obtiene un medicamento de marca del Nivel 4, tendrá que pagar un costo mayor por el medicamento.

¿Qué son medicamentos Especializados o Biotecnológicos (Nivel 4)?

Algunos medicamentos para condiciones crónicas y de alto riesgo requieren una administración y/o un manejo especial, por su composición compleja. Estos medicamentos se ofrecen a través de las farmacias de la red o del Programa de Medicamentos para Condiciones Especiales, el cual cuenta con una red de farmacias especializadas dedicadas a que estos medicamentos sean despachados y administrados correctamente. Si su beneficio de farmacia no establece un nivel específico para estos productos aplicará el primer nivel indicado en la columna de la tabla de productos especializados.

GUÍAS DE REFERENCIA

Programa de Terapia Escalonada (ST)

En algunos casos, requerimos que usted utilice primero un medicamento como terapia para su condición antes de que cubramos otro medicamento para esa condición (Terapia Escalonada). Por ejemplo, si el Medicamento A y el Medicamento B se usan ambos para tratar su condición médica, nosotros requerimos que usted utilice primero el Medicamento A. Si el Medicamento A no funciona para usted, entonces cubriremos el Medicamento B.

Medicamentos que requieren preautorización (PA)

Ciertos medicamentos necesitan una preautorización para ser adquiridos por el paciente. Los mismos se han identificado a la derecha con **PA (requiere preautorización)**, en cuyo caso, la farmacia gestiona la preautorización con nuestro centro de llamadas.

Los medicamentos que requieren preautorización usualmente son aquellos que presentan efectos adversos, son candidatos al uso inapropiado o están relacionados con un costo elevado.

Aquellos medicamentos que han sido identificados que requieren preautorización deben satisfacer los criterios clínicos establecidos según lo haya determinado el Comité de Farmacia y Terapéutica. Estos criterios clínicos se han desarrollado de acuerdo a la literatura médica actual.

Límites de Cantidad (QL)

Ciertos medicamentos tienen un límite en la cantidad a despacharse. Estas cantidades se establecen de acuerdo a lo sugerido por el manufacturero como la cantidad máxima adecuada que no está asociada a efectos adversos y la cual es efectiva para el tratamiento de una condición.
